

Week Report 5

Practice

Practice 1

A terminal window titled 'Tilix: anthony@cis106: ~' showing a series of commands and their outputs. The user navigates to /srv/, removes two files, returns to the home directory, and then attempts to remove a directory structure. The first attempt fails with 'No such file or directory' for both ~lab5/q1.1 and ~lab5/q1.2. The second attempt succeeds.
